jtan45@illinois.com | jordantjh.github.io | (217) 607-6405  
602 E. Clark St, Apt 13, Champaign, IL, 61820.

## Education

**University of Illinois at Urbana-Champaign** May 2019  
Bachelor of Science in Computer Engineering GPA: 2.90/4.00

## Projects

**BiiNews** Champaign, IL  
*Cofounder* May 2019 – Present

- Plan and manage web project, work on full stack of the web and allocate tasks to another Computer Science major on the team
- Implement team-wide Objective and Key Results (OKRs) and hold regular meeting with the other two members
- Formulate team's strategy, defined the specifications for minimum viable product, and planned the path to product launch
- Working with: React, Django, Postgres, HTML/CSS, Bootstrap, JavaScript

**Mixtaped** Champaign, IL  
*Cofounder* June 2017 – October 2017

- Built the entire website myself within a month, implemented features like uploading pictures/videos, playing media files on the website, commenting and reacting on a song/video, profile setting page, search and more
- Worked with: Nodejs, Express, MongoDB, HTML/CSS, Bootstrap, JavaScript

**Reltup** Champaign, IL  
*Founder* August 2016 – February 2017

- Hired a web freelancer and worked together to build a complex social media website that had subscription and news feed features implemented
- Worked with: PHP, MySQL, HTML/CSS, Bootstrap, JavaScript
