Jordan Tan

Passionate and Conscientious Full Stack Web Developer
jordantjh@hotmail.com | jordantjh.github.io | (217) 607-6405
602 E. Clark St, Apt 13, Champaign, IL, 61820.

Building web apps from scratch is a strange hobby of mine.
I learn new things incredibly fast (currently learning GraphQL) and I can guarantee that you will find my drive to make things successful to be unparalleled.

Education

University of Illinois at Urbana-Champaign   January 2016 - May 2019

Bachelor of Science in Computer Engineering

* I have taken a UI/UX class here.

Projects

BiiNews   Champaign, IL
Cofounder   May 2019 – Present
- Designed and coded the frontend, implemented an admin panel for the other two cofounders to add new articles with images and videos to the database, implemented user system for signing up and logging in, and enabled users to comment on articles.
- Working with: React, Node, Express, MongoDB, HTML, CSS, Bootstrap, JavaScript

Mixtaped   Champaign, IL
Cofounder   June 2017 – October 2017
- Built the entire website myself within a month, implemented features: uploading pictures/videos, playing media files on the website, commenting and reacting on a song/video, profile settings page, search and more
- Worked with: Node, Express, MongoDB, HTML, CSS, Bootstrap, JavaScript

Reltup   Champaign, IL
Founder   August 2016 – February 2017
- Hired a web freelancer and worked together to build a complex social media website that has subscription and news feed features implemented
- Worked with: PHP, MySQL, HTML, CSS, Bootstrap, JavaScript
